

Dated: Tuesday - 15th August, 2017

SFFECO GLOBAL Launches a range of KiteMark® Approved Fire Blankets under its home brand SFFECO - The fire fighting specialist.

SFFECO Is proud to launch its new Fire Blanket range. Made from the best quality materials and as per international standards SFFECO Fire Blanket is BSI Kitemark Certified as per BS EN 1869:1997.

SFFECO is constantly innovating and adding new products to its wide range of products making us a one stop shop for all fire and safety requirements. As a result of the constant innovation and research we have launched our new range of fire blankets.

SFFECO Fire Blankets are specifically designed and manufactured to European Standards for fire blankets with flexible sheet of material intended to be used to extinguish small fires in its early stage by smothering. The blanket is provided with pull tapes for safe handling. When removed from the container the blanket is held in the shield position, protecting the user from the fire. Fire Blankets can be used to wrap around a person whose clothes are on fire and can also be used to wrap around a hot or burning object.

Our Fire Blankets are absolutely reliable, simple to use, easy to pack and store and come packed in containers. A complete how to use guide is mentioned on the container to ensure ease of use during emergencies.

MODELS

SFD-FB-1111

Size: 1.1 mtr x 1.1 mtr

SFD-FB-1212

Size: 1.2 mtr x 1.2 mtr

SFD-FB-1218

Size: 1.2 mtr x 1.8 mtr

Developing a fire blanket as per international standards and certificate is another milestone added to SFFECO Global. The development process involved a lot of research not only about the product and materials but also to understand the present risks and hazards. After a stringent process of testing and research SFFECO Fire Blanket is now available to be shipped to all our customer.
